Beebe Medical Group COVID Positive Care Center Referral Form

The Beebe COVID-19 Positive Care Center is designed to provide access to face to face care and diagnostic services for COVID-19 positive patients and patients under investigation (PUIs) for COVID-19 (defined in this process as a patient who meets the screening criteria for testing).

Patients referred to the Care Center need to be identified by a provider to require a face to face visit with a provider, labs, and/or imaging services.

The Beebe COVID Positive Care Center offers treatment for non-emergent respiratory complaints. Additionally, non-emergent ailments requiring a face to face provider visit can be scheduled. This may include eye and ear infections; urinary tract and bladder infections; sprains and minor injuries; minor gastrointestinal complaints; skin problems such as minor rashes and burns; minor cuts and simple lacerations; upper respiratory infections such as sore throats, sinus infections, laryngitis, allergies.

This clinic is designed for patients who are not appropriate for telemedicine visits or self-quarantine. If you would like your patient to be seen for a face to face visit, labs, and/or imaging services, please complete the below form.

PATIENT FIRST NAME:	PATIENT LA	ST NAME:		_	
DOB:	Gender:				
ADDRESS:	CITY:	STATE:			
PHONE:	DATE:				
COVID Positive PUI (Persons Under	r Investigation)	Has the PUI been tested?	Yes	or	No
If yes, when and where was the testing comp	leted?			_	
Reason for Referral:				_	
Referring Provider Name (print):				_	
Additional Comments:				_	
				_	
				_	

PROVIDER WORKFLOW: Provider assesses and determines patient is COVID+ or PUI, and face to face care is warranted. Provider completes this form and any orders. Provider office calls 302-645-3332, option 4 with patient's name, DOB, and phone number. Provider office faxes order, this complete form, both sides of insurance card, driver's license and a demographic sheet to 302-644-7016. After receiving the faxed order and screening tool, Beebe will contact the patient to schedule an appointment. BMG providers can scan form into Athena and omit faxing step.
